

RING SIZE GUIDE

TO MAKE SURE THIS PAGE IS PRINTED TO SCALE, THE RULER LOCATED BELOW THIS TEXT SHOULD MEASURE 3 CM.

PLACE YOUR RING ON THE CIRCLE BELOW

Sizes 66-70 are pre-ordered and made on demand. We do not keep stock from these sizes. Same applies to size 40-44 in specific rings (if you don't see the ring size in the drop down of the product page, then we only make it on demand)

CHOOSING THE RIGHT SIZE

CLOSED RINGS:

When measuring your ring size, it is preferable to do so at the end of the day when fingers are at their largest. Finger sizes can vary in strong heat or cold weather. Alcohol and salt can make your fingers swell. It is very important to consider the width of the ring band. A thick band will feel tighter than a thin one, you may want to select a size larger than your normal size.

Remember that no two hands are exactly alike and that your left and right hands are also asymmetrical.

Each ring size in the chart above corresponds to the inner diameter of the ring. The number written in the center indicates the circumference of the ring. Place a ring of yours that fits you already, right on these circles and look for the corresponding diameter of your ring. To find a perfect match, the outline of the circle should be visible just along the inside of the ring.

If your ring is between two sizes, CLUB BY FYR advices you to size up while keeping in mind that the design will still affect how the ring will fit you.

ADJUSTABLE RINGS:

Some of our rings are open and therefore slightly expandable. Some designs can cover 2 sizes (52-54), and some designs are more expandable than others due to their thicker width and them being larger on the finger. These rings will be able to cover up to 4 sizes instead of 2 (52-56).

With adjustable rings, there is less room for mis-measurements.
